ABOUT US

In a simple wording, Safety Lord is a brand that comes out of the “kitchen”. Growing with the cultural heritage of the company it is affiliated to; Safety Lord has analyzed the needs of its partners at their kitchen so as to address the rising needs of our time and developed itself as a solution partner which adds value to the personal protective equipment industry with its knowledge, partnership responsibilities, and working ethics. Since its foundation, Safety Lord has always adopted innovative approaches so as to meet the universal needs of the future as well and has become an indispensable partner for the leading companies desiring to stray a step ahead of the others in the sector.

Deeming it a duty to utilize the best quality materials in production processes, Safety Lord, has been able to offer a product range that provides a blend of quality, durability and long economic life.

Safety Lord has been committed to producing world-class products with superior performance and acquired a vision of reaching the capacity of a solution partner which shapes the future of the global standards in the sector.

In addition to all of these, Safety Lord has been able to make a difference by guaranteeing the cost-efficiency and establish trust in the eyes of the world leaders as a long-term solution partner.

FullFlex

WORLD LEADERS' CHOICE IN DRY ENVIRONMENTS

BEDEN: 7(S) - 11(XXL)

FullFlex's special coating formula ensures the ease of use while allowing a perfect room for precision handling. Minimizing your costs thanks to an extended product life cycle. FullFlex increases your productivity with the comfort of use.

FullFlex DOUBLE

WORLD LEADERS' CHOICE IN OILY ENVIRONMENTS

BEDEN: 8(M) - 11(XXL)

Specially designed for use in completely oily environments, FullFlex Double takes strength from its double-coating structure. While the first layer of the coating ensures zero water and oil permeability, the second layer provides a great level of slip-resistance. FullFlex Double will never compromise on user friendliness thanks to its flexibility.

FOR THOSE WHO CHALLENGE TIME

OEKO-TEX®
CONFIDENCE IN TEXTILES
STANDARD 100
19.HTR.77071 HOHENSTEIN HTTI

BEDEN: 7(S) - 11(XXL)

FullFend allows you to handle different works in industrial areas wearing a single glove. It is designed to accelerate your company and it comes with increased durability without compromising the working comfort thanks to its double-layer surface. You can keep FullFend gloves on during your daily workflow.

EN420:2003
+A1:2009

FullFend is developed for employees who perform rough work in moderately greasy environments. FullFend is produced with double-layer knitting technology which allows for a nylon interlining for sweat transfer and high comfort and a polyester outer surface for increased durability.

While maximizing your operating speed thanks to its superior comfort, the durable structure of FullFend makes it the primary choice of companies that do not want to invest in disposable gloves with its durable structure.

Easy put on and take off			Customized yarn for FullFend
360° breathability on all surfaces			Double-layer knitting technology
Antiperspirant			Pre-washed prior to packaging
Climatic comfort with swift heat transfer			Odour free
Touch-screen friendly			Maximum flexibility

THE HEAT SHIELD IN YOUR HAND

BEDEN: 7(S) - 11(XXL)

FullFire is produced for use in conditions that require protection against heat cut resistance. Thanks to its increased layer on its outer surface, it offers much longer life cycle and protection. It provides excellent grip thanks to its specially developed coating on its outer surface. Additionally, while offering high protection against tears and cuts thanks to its unique knitting technology it also provides comfortable use for a long time with its thin structure.

FullFire is suitable for use in heavy manufacturing industry, manufacturing sites for transportation such as road, aircraft, railway or automotive, storage works or heavy conditions requiring heat resistance, and higher grip.

FlexiFull is designed for companies prioritizing cost effectiveness and price-performance. FlexiFull provides the highest possible price performance compared to other gloves thanks to its more flexible coating and durable knitting texture.

**EN420:2003
+A1:2009**

Disposable gloves are harmful to the environment and often fail to provide adequate quality standards. FlexiFull not only performs much better than disposable gloves, but also helps us protect nature thanks to its extended lifespan.

FlexiFull stands out as a model, which is naturally cost-effective without compromising on the user comfort, specifically designed for companies operating under swift usage cycle conditions. In this respect, it offers an effective alternative for many companies, from small to medium-sized, which are willing to make a difference in the market with rational cost-effectiveness solutions.
